

# Energy Storage and Management Solutions

## EIB financing opportunities

*Els Sweeney-Bindels*

*Brussels, 9 October 2019*

# Our Priorities

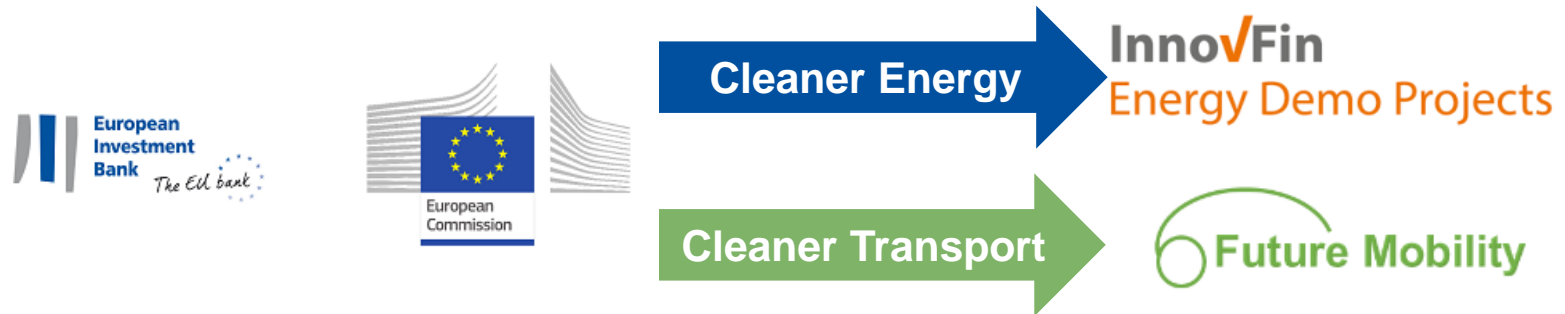

**The European Investment Bank focuses on four areas:**

- Innovation and skills
- Small businesses
- Infrastructure
- **Climate and environment**

# EIB Climate Action

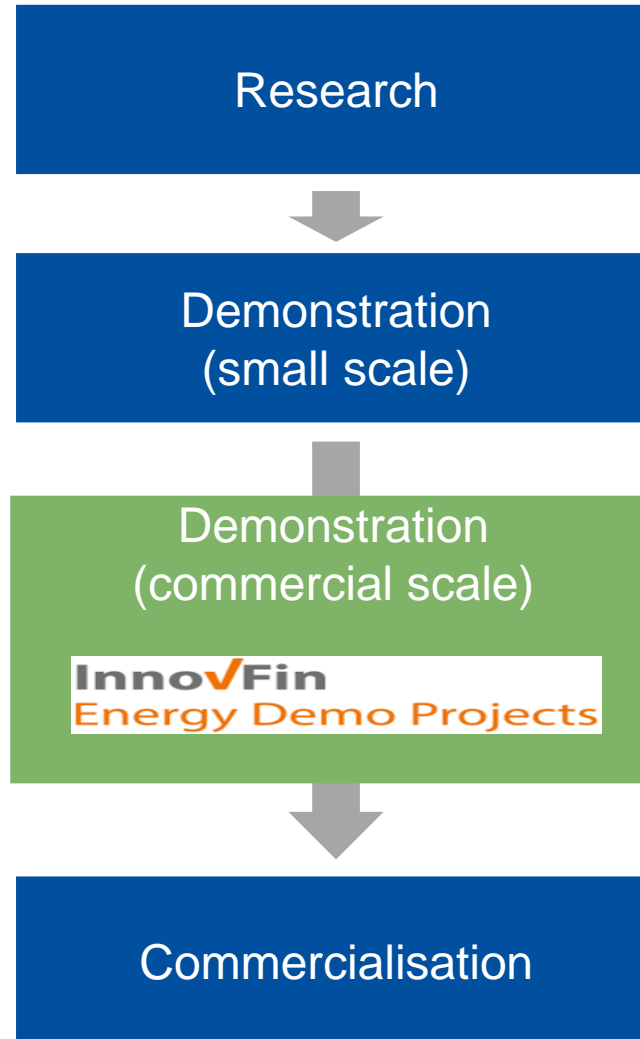

- In cooperation with the European Commission two new instruments have been developed.
- These target the decarbonization of two sectors:

# About the Energy Demo Projects Facility

“The EU needs investments in innovative energy technologies to meet its **decarbonization** targets”

# Examples of EDP projects

**Energy Storage**  
EUR 52.5m

**northvolt**

**Wave Energy**  
EUR 10m

**Solar Energy**  
EUR 30m

**Fuel Cell**  
EUR 12m

**Floating Wind**  
EUR 60m

**Smart Energy**  
EUR 17m

# Possible challenges for financing

## High merchant risk, with limited long-term visibility on stable revenues

- Bankable off-take agreements

## Size of the project

- Project finance requires significant volume
